Subject: **Agenda Item for the June 4, 2014 Fish and Game Commission Meeting 5-year
Renewal Private Lands Wildlife Habitat Enhancement and Management (PLM) Area
License**

The Department of Fish and Wildlife has reviewed the 5-year management plans and renewal applications for 7 properties in 4 counties consisting of 58,088 acres.

The new 5-year management plans for these areas are in compliance with Commission policy requirements for private lands management. The applicants have identified the location where records will be kept and made available for inspection. Habitat improvements accomplished under these plans will enhance and maintain wildlife resources on and around the PLM areas. The goals and objectives stated in the management plans are compatible with Department management plans for appropriate species in these areas. In addition, access to public lands will not be diminished under implementation of these management plans.

The Department recommends that the Commission approve the specified wildlife management plans, applications, and the 2014 harvest programs under the conditions specified in the attached table.
