Subject: SOLID GOLD FISHING (a request for a striper-limit change at New Hogan)
Date: Thursday, August 21, 2014 8:58:32 PM

Greetings to all,

"The striper were once in great numbers" -

For the past two years the striper fishing at New Hogan was all but done. This, the third year, shows some improvement because many anglers have given up. I had many people approach me with questions about "What happened to our striper?"

I spoke with the warden and Army C. of E. and they said they were aware of the decline but knew of no reason other than getting fished out with the high limit of 10-striper, any size.

My question: Will you please lower the limit and require any striper to be a minimum of 18-inches before it can be kept?

This move will be a "Win Win" for all - "New Hogan lake is very unique for anglers."

Thank you for your time,
Out Door writer- William Heinselmann
