RE: Hunting in California & the Wildlife Resources Committee.

I request that my letter be entered into the Official Record.

Why are we who hunt in California the target of the radical anti-hunting groups & the HSUS, sabotaged by our own F&G Commission?

The F&G Commission is supposed to manage the time-honored tradition of hunting & scientifically manage the game species in our state.

Instead, you are in the political & monetary pockets of those that want to stop all hunting, whether through the use of dogs, restricted ammo, hunting contests, or biased recommendations from the WRC, and on & on it goes.

TALK ABOUT PREJUDICE & HUNTING RACISM!

If you are so naive, as to think the HSUS & the radical anti-hunting groups care about wildlife, you are so sadly mistaken! It's all about POWER, MONEY, CORRUPTION, & to end ALL hunting in California. The Fish & Game Commission is & has taken money from these groups. YOU TELL ME THIS IS NOT A CONFLICT OF INTEREST - maybe even illegal.

Hunters are being discriminated against, & that's not morally or ethically right. We are being stabbed in the back by our own Fish & Game Commission.

Stop bending over & grabbing the ankles, and start doing the job you were appointed to do, for the benefit of our game species & the hunting community.

Sincerely,

Nancy C. Karner-Lewis
