Subject: How to reach more people in CA
Date: Wednesday, March 25, 2015 10:08:23 AM

Hello,

your meetings are held in several locations in CA so more people can attend. This is the 21st century!

Please try presenting your public meetings on Citrix.com as webinars! That way anyone in the state could attend without losing a day or more of work.

Note I have been a hunter and fisherman all of my life, that is 52 of my 75 years have been in CA.

I would appreciate a reply to this idea.

Best Regards

Stephen Smith
