Past Management

Past Management

Past Management

FMP Goals

Herring Management Goals

Develop a Harvest Control Rule builds on current precautionary management

Overhaul the permit system to reflect the modern fleet

Describe the non-fishery threats to important herring habitat

Develop collaborative research protocols for co-management in unassessed areas

FMP Goals

Herring Management Goals

Develop a Harvest Control Rule builds on current precautionary management

Overhaul the permit system to reflect the modern fleet

Describe the non-fishery threats to important herring habitat

Develop collaborative research protocols for co-management in unassessed areas

Supporting the Master Plan Revision

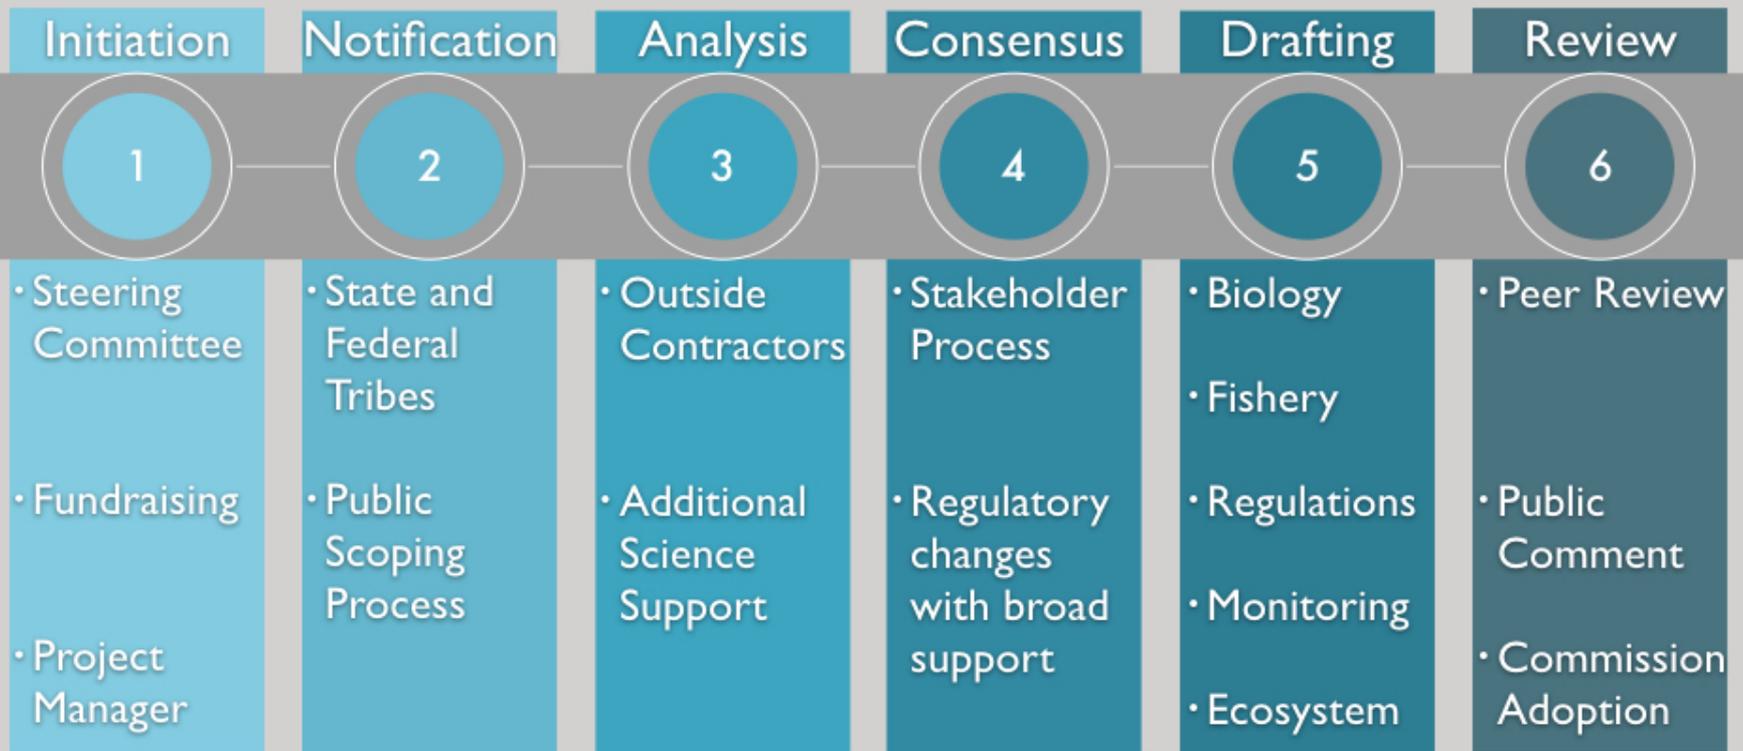

Stream-line the FMP process

Outsource components while retaining oversight

External funding to reduce burden on Departmental resources

Comprehensive scoping process to reduce controversy

FMP Process
