~~**ADDITIONAL SPECIES SPECIFIC REQUIREMENTS:**~~

~~**Deer** - If either sex tags are used, a maximum allowable number of forked horn or better bucks to be harvested must be identified. No deer hunting past November 30th unless special circumstances exist. No deer hunting past December 31st.~~

~~**Elk** - Licensees requesting significant tag quota changes must do so prior to December 1st so the Department can adequately evaluate and disclose the effects of significant changes in the appropriate environmental document. Elk harvest may be permitted in the second license year providing the initial license was approved prior to September 1 of the first year. Any break in licensing for one year or more will require an initial license application with initial season restrictions.~~

~~**Antelope** - Existing PLM's that have not identified antelope as a managed species in the management plan, but now request to hunt antelope, must first amend their management plan and must wait one year before antelope hunting will be allowed. The number and type of antelope tags issued may not be determined until after the summer antelope census is completed (usually in mid July). Applicants may request specific numbers and/or types of tags but there is no guarantee that what they request will be issued. Total tags allocated to PLM's within the established public antelope hunting zones will not exceed ten (10) percent of the total tags issued for public antelope zones. In order to meet management objectives, doe harvest on PLM's shall be determined independently from the doe harvest for public antelope zones. No person may kill more than one buck antelope per year.~~

~~**Upland Game** - During the initial license year, upland game seasons shall correspond to general public seasons for the appropriate species. Variations in length and/or timing of the PLM upland game season(s) may be allowed starting the second continuous year of participation in the program. Any break in licensing for one year or more will require an initial license application with initial season restrictions. Bag limits for upland game species shall be consistent with bag limits imposed on public hunters during general seasons.~~

~~**Waterfowl** - Waterfowl season lengths and bag limits are established in conformance to Federal Regulations. The Fish and Game Commission has no authority to modify waterfowl season lengths and bag limits; PLM's proposing to harvest waterfowl must do so within Federal regulations.~~
