

**TITLE 14. Fish and Game Commission
Notice of Proposed Changes in Regulations**

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 202 and 355; reference sections 202, 355, and 356, Fish and Game Code; proposes to Amend Sections 360, 361, 362, 363 and 364, Title 14, California Code of Regulations (CCR), relating to Waterfowl Regulations for the 2014-2015 season.

Informative Digest/Policy Statement Overview

Current regulations in Section 502, Title 14, California Code of Regulations (CCR), provide definitions, hunting zone descriptions, season opening and closing dates, and establish daily bag and possession limits for waterfowl. Changes are proposed for several subsections of Section 502 which are generally described below. Regarding duck season lengths and bag limits, item 3 provides notice that other framework regulations may change in 2014 when current biological information becomes available. Concerning geese, items 4, 5, and 6 require Flyway Council and Service approval to establish the final bag limits pursuant to the process described below.

The Service will consider recommendations from the Flyway Council at their meeting on July 31 and August 1, 2014. At this time, the California Waterfowl Breeding Population Survey has not been conducted and the Service has not established federal regulation “frameworks” which will occur in August after the analysis of current waterfowl population survey, other data, input from the Flyway Councils and the public.

The Department’s proposals are as follows:

1. Modify the name of the Humboldt Bay South Spit Special Management Area to Humboldt Bay South Spit (West Side).
2. Increase the possession limit for coots and moorhens to triple the daily bag limit statewide. This change will make the possession limit for coots and moorhens consistent with those for other waterfowl throughout the state.
3. Provide a range of waterfowl hunting season lengths (which may be split into two segments) between 38 and 107 days (including 2 youth waterfowl hunt days) for all hunting methods. A range of daily bag limits is also given for ducks in all zones. Federal regulations require that California’s hunting regulations conform to those of Arizona in the Colorado River Zone and with Oregon in the North Coast Special Management Area. See table below for season and bag limit ranges.
4. Increase the total daily bag limit for geese in the Northeastern California, Southern San Joaquin Valley, and the Balance of State zones from 10 to 25 geese per day; the Southern California Zone total daily bag limit for geese will increase from 10 to 18 geese per day.
5. Increase the total daily bag limit for white geese in the Northeastern California,

Southern San Joaquin Valley, Southern California, and Balance of State zones from 10 to 15 white geese per day; the bag limit for white geese will increase from 10 to 15 per day in the Imperial County Special Management Area.

6. Increase the total daily bag limit for dark geese from 6 to 10 dark geese per day in the Northeastern California, Southern San Joaquin Valley, and Balance of State zones; increase the bag limit for dark geese from 3 to 4 per day in the Colorado River Zone; and increase the daily bag limit for Canada geese from 6 to 10 per day in the North Coast Special Management Area.
7. Since Special Management Areas are not a subset of Balance of State Zones (as might be implied by the present numbering of the regulation) it is recommended that the numbering of these provisions in 502(d)(5)(D) be revised. A new subsection "502(d)(6) Special Management Areas" is proposed to replace 502(d)(5)(D), with subsequent renumbering of the following subparagraphs. Other references to this subsection are also changed.

Also, minor editorial changes are proposed to clarify and simplify the regulations and to comply with existing federal frameworks.

Benefits of the regulations

The benefits of the proposed regulations are concurrence with Federal law, sustainable management of the waterfowl resources, positive impacts to jobs and/or businesses that provide services to waterfowl hunters will be realized with the continuation of adopting waterfowl hunting seasons in 2014-15.

Non-monetary benefits to the public

The Commission does not anticipate non-monetary benefits to the protection of public health and safety, worker safety, the prevention of discrimination, the promotion of fairness or social equity and the increase in openness and transparency in business and government.

Evaluation of incompatibility with existing regulations

The Commission has reviewed the Title 14, CCR, and conducted a search of any similar regulations on this topic and has concluded that the proposed amendments to Section 502 are neither inconsistent nor incompatible with existing state regulations. No other State agency has the authority to promulgate waterfowl hunting regulations.

Availability of Modified Text

If the regulations adopted by the Commission differ from but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Circumstances beyond the control of the Commission (e.g., timing of Federal regulation adoption, timing of resource data collection, timelines do not allow, etc.) or changes made to be responsive to public recommendation and comments during the regulatory process may preclude full compliance with the 15-day comment period, and the Commission will exercise its powers under Section 202 of the Fish and Game Code. Regulations adopted pursuant to this section are not subject to the time periods for adoption, amendment or repeal of regulations prescribed in Sections 11343.4, 11346.4 and 11346.8 of the Government Code. Any person

interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency representative named herein.

If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

Impact of Regulatory Action/Results of the Economic Impact Analysis

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and following initial determinations relative to the required statutory categories have been made.

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

The proposed regulations are intended to provide additional recreational opportunity to the public. The response is expected to be minor in nature.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission does not anticipate any impacts on the creation or elimination of jobs, the creation of new business, the elimination of existing businesses or the expansion of businesses in California. The proposed waterfowl regulations will set the 2014-15 waterfowl hunting season dates and bag limits within the federal frameworks. Positive impacts to jobs and/or businesses that provide services to waterfowl hunters will be realized with the proposed regulations for the waterfowl hunting season in 2014-15. This is based on a 2011 US Fish and Wildlife national survey of fishing, hunting, and wildlife associated recreation for California. The report estimated that migratory bird hunters contributed about \$169,115,000 to businesses in California during the 2011 migratory bird hunting season. The impacted businesses are generally small businesses employing few individuals and, like all small businesses, are subject to failure for a variety of causes. Additionally, the long-term intent of the proposed regulations is to sustainably manage waterfowl populations, and consequently, the long-term viability of these same small businesses.

The Commission anticipates benefits to the health and welfare of California residents. Hunting provides opportunities for multi-generational family activities and promotes respect for California's environment by the future stewards of the State's resources. The Commission anticipates benefits to the State's environment by the sustainable management of California's waterfowl resources. The Commission does not anticipate any impacts to worker safety because the proposed amendments will not affect working conditions.

(c) Cost Impacts on a Representative Private Person or Business:

The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

(d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State:

None.

(e) Nondiscretionary Costs/Savings to Local Agencies:

None.

(f) Programs Mandated on Local Agencies or School Districts:

None.

(g) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code:

None.

(h) Effect on Housing Costs:

None.

Effect on Small Business

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code sections 11342.580 and 11346.2(a)(1).

Consideration of Alternatives

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.
