

**TITLE 14. Fish and Game Commission  
Notice of Proposed Changes in Regulations**

**NOTICE IS HEREBY GIVEN** that the Fish and Game Commission (Commission), pursuant to the authority vested by Sections 200, 202, 205, 220, 240, 316.5 and 2084 of the Fish and Game Code and to implement, interpret or make specific Sections 200, 202, 205, 316.5 and 2084 of said Code, proposes to amend subsection (c) of Section 27.80, Title 14, California Code of Regulations (CCR), relating to ocean salmon sport fishing during the month of April 2016.

**Informative Digest/Policy Statement Overview**

The Pacific Fishery Management Council (PFMC) coordinates west coast management of recreational and commercial ocean salmon fisheries in the federal fishery management zone (three to 200 miles offshore) along the coasts of Washington, Oregon and California. The annual PFMC ocean salmon regulation recommendations are subsequently implemented by the National Marine Fisheries Service (NMFS) effective on May 1 of each year.

California's recreational salmon fishing regulations need to conform to the federal regulations to achieve optimum yield in California under the federal Salmon Fishery Management Plan. The Commission adopts regulations for the ocean salmon recreational fishery in State waters (zero to three miles offshore) which are consistent with these federal fishery management goals.

**Present Regulations**

Regulations for 2015 [subsections 27.80(c) and (d)] authorized ocean salmon recreational fishing seven days per week north of Horse Mountain including Humboldt Bay from May 1 to September 7, 2015. Between Horse Mountain and Point Arena, ocean salmon recreational fishing was authorized seven days per week from April 4 to November 8, 2015. Between Point Arena and Pigeon Point, ocean salmon recreational fishing was authorized seven days per week from April 4 to October 31, 2015. Between Pigeon Point and Point Sur, ocean salmon recreational fishing was authorized seven days per week from April 4 to September 7, 2015. For areas south of Point Sur, the ocean salmon recreational fishing season was authorized seven days per week from April 4 to July 19, 2015. The bag limit for all areas in 2015 was two fish per day (all species except coho). The areas north of Point Arena had a minimum size limit of 20 inches total length. The area between Point Arena and Pigeon Point had a minimum size limit of 24 inches total length through April 30, 2015 and 20 inches total length thereafter. Areas south of Pigeon Point had a minimum size limit of 24 inches total length through May 31, 2015 and 20 inches total length thereafter. Since the existing regulations pertained only to the 2015 season, amendment of these regulations is essential to allow for any fishing in State waters during 2016.

**Proposed Regulations**

Two separate Commission actions are necessary to conform State regulations to federal rules that will apply in 2016. The first action would amend subsection 27.80(c), establishing salmon fishing regulations for the month of April 2016 consistent with federal regulations for the federal fishery management zone off California. Recreational salmon fishing regulations for May 1 through the end of 2016 will be considered in the second rulemaking action, tentatively scheduled for adoption in April 2016.

For public notice purposes and to facilitate Commission discussion, the Department of Fish and Wildlife (Department) is proposing the following regulations to encompass the range of federal ocean salmon regulations that are expected to be in effect April 2 through April 30, 2016. This approach will allow the Commission to adopt State ocean salmon recreational fishing regulations to conform to those in effect in federal ocean waters shortly after the federal rules are promulgated.

- (1) North of Horse Mountain and in Humboldt Bay: The fishery shall remain closed in this area during April. The remainder of the 2016 season will be decided in April by the PFMC and Commission and the section will be amended pursuant to the regulatory process.
- (2) South of Horse Mountain: The season, if any, may open on a date within the range of April 2 through April 30, 2016. The proposed daily bag limit will be from zero to two fish, and the proposed minimum size will be from 20 to 26 inches total length. The exact opening date, along with daily bag limit, minimum size, and days of the week open will be determined by the Commission, considering federal regulations applicable to each area for April 2016 and may be different for each area.

The benefits of the proposed regulations are concurrence with federal law, sustainable management of ocean salmon resources, and promotion of businesses that rely on recreational ocean salmon fishing.

The proposed regulations are neither inconsistent nor incompatible with existing State regulations. The legislature has delegated authority to the Commission to adopt sport fishing regulations in general (Sections 200, 202 and 205, Fish and Game Code) and salmon sport fishing regulations specifically (Section 316.5, Fish and Game Code). The proposed regulations are consistent with regulations for sport fishing in marine protected areas (Section 632, Title 14, CCR) and with general sport fishing regulations in Chapters 1 and 4 of Subdivision 1 of Division 1, Title 14, CCR. Commission staff has searched the California Code of Regulations and has found no other State regulations related to the recreational take of salmon in the ocean.

#### **Impact of Regulatory Action/Results of the Economic Impact Analysis**

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Business, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The Department anticipates status quo fishing levels for April 2016 as compared to the April 2015 ocean salmon sport fishing season.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission does not anticipate that the proposed regulations will have any impact on the creation or elimination of jobs, the creation or elimination of businesses or the expansion of businesses in California.

Salmon sport fishing contributes to increased mental health of its practitioners, provides opportunities for multi-generational family activities and promotes respect for California's environment by the future stewards of California's natural resources.

The Commission anticipates benefits to the State's environment in the sustainable management of salmon resources.

Additional benefits of the proposed regulations are concurrence with federal law, and promotion of businesses that rely on recreational ocean salmon fishing.

Consideration of Alternatives

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.
